OBJECTIVE:

A Computer systems engineer & Front-End developer trying to learn new things daily. Most of my tech experience is focused on all the technologies and projects shown in my GitHub profile and I will be adding whatever I learn in the future into the stack.

EDUCATION:

- **Bachelor's degree** 2018 - 2023

Arab American University

- **High School Diploma** 2018-2019

Asira al-Qibliya secondary school

TECHNICAL SKILLS:

- **Programming Languages:**

C++, Python, Java, Flutter, JavaScript, SQL,
HTML & CSS.

- **Other Technologies:**

LINUX, DBMS, Bootstrap, ReactJS, Git & [Github](#).

SKILLS:

- Flexibility in projects collaborations.
- Able to create SPA with ReactJS.
- Comfortable with using MVC software design pattern.
- Comfortable with using LINUX OS (Ubuntu).
- Team Leadership.
- Time management.
- Teamwork Skills.
- Problem Solving.

PROJECTS:

- **Sho3lat-Fikr website - ASP. Net Core MVC**

As a member and an admin in the Sho3lat-Fikr club, I have worked on this web site to make it as a descriptor about it.

Used technologies: MVC, C#, HTML, CSS & Bootstrap.

- **Shoaib.Jadallah Portfolio**

I have made this web site as a web profile -CV, so that I can publish my progress and my work on it.

- **GYM web site - React**

A project was developed as a practice in React framework.

Used technologies: (HTML, CSS & JS) By React technology.

- **Light-Up project & Practice on CSS HTML JS**

That's my practice in HTML, CSS & JS, You can find all of this in my Github profile.

- **SHERTEE clothes factory - Software Engineering.**

- **Smart house - Engineering project management.**
